WORK EXPERIENCE

Organization Name: Mindfire Solutions

Position: Associate Lead

Duration: January 2016 - Present

Projects:

1: Customer & Order Management App for an HVAC equipment manufacturing company

Duration: 4 years 6 months

Technical Details: AWS-EC2, Bootstrap, CSS3, Git, HTML5, JavaScript, jQuery, LAMP, Laravel, MySQL, PHP, React.js

Details: Developed a customer and order management application for a United States-based HVAC equipment manufacturing company. Improved code quality, implemented a maintenance application using Laravel, created an auto scheduler, and added new products.

2: Logistics and Data Management App

Duration: 11 months

Technical Details: AWS-EC2, Bootstrap, CSS3, Git, HTML5, jQuery, LAMP, Laravel, MySQL, PHP, SCSS

Details: Rebuilt an existing VB app to a Laravel app for tracking package deliveries via trucks. Worked on data management and ticketing system for daily transactions.

3: Real Estate Buyer Seller System

Duration: 4 months

Technical Details: AWS-EC2, Bootstrap, CSS3, Git, HTML5, JavaScript, jQuery, LAMP, Laravel, MySQL, PHP, SCSS

Details: Developed a real estate selling system from scratch. Collaborated directly with the client to create a platform for sellers to post properties for sale, and buyers to search and like/dislike properties. Implemented a proposal approval system and integrated with MLS listing service providers.

4: Campaign Management Application

Duration: 11 months

Technical Details: Bootstrap, CSS3, Git, HTML5, JIRA, jQuery, MySQL, PHP

Details: Worked on a campaign management application, allowing business/marketing leaders to track marketing efforts. Implemented AWS SQS for handling concurrent hits, added PHPUnit for test cases, implemented ACL for resource access control, and integrated Mailgun APIs for email functionality.

EDUCATION

Master in Computer Application

Duration: 2013 - 2016

Institute: Silicon Institute of Technology, Bhubaneswar
